

Platform trolley 1000×600 mm

Product code	Type
0112632	PW 10x6

FUNCTIONAL DESCRIPTION

The Platform trolley 1000×600 mm from Hupfer serves to transport goods.

- Robust stainless steel construction ensures hygienic surfaces for quick cleaning and compliance with strict hygiene standards
- Deep-drawn shelf with profile edge retains dirt and liquids, enabling thorough and efficient cleaning
- Sound-absorbing mats under the shelf reduce noise levels, creating a quieter and more comfortable environment
- Four swivel castors with two total locks provide precise manoeuvrability and secure positioning
- Elastic plastic disk bumpers protect the trolley and surroundings from damage, reducing maintenance needs

EQUIPMENT FEATURES

Hygienic stainless steel surfaces

Hygienic stainless steel surfaces ensure a low-germ environment. The smooth, non-porous structure can be cleaned quickly and without leaving any residue. This saves you time, reduces cleaning costs and meets strict hygiene standards – ideal for commercial kitchens and medical areas. Robust, durable and reliable in daily use.

Disk bumpers

The elastic plastic rollers on all four corners of the appliance provide reliable protection against damage during transportation. Thanks to their simple design, they can be replaced quickly and without tools, which reduces maintenance costs and increases operational readiness.

High Manoeuvrability: 4 swivel castors, 2 with total locks

Four smooth-running swivel castors, two with total locks, enable precise manoeuvring in tight spaces and secure locking during operation. This equipment ensures optimal mobility while maintaining high directional stability and security.

Shelves with sound-absorbing mats

The sound-absorbing mats supplied effectively reduce the noise level. This creates a quieter atmosphere in the guest area – for greater well-being and comfort.

Deep-drawn shelf

The shelf is deep-drawn and has a closed surface with an all-round profile edge. Dirt and liquids are reliably retained – for quick, thorough cleaning in daily operation.

GENERAL TECHNICAL DATA

Width rated	1.000 mm
Depth rated	600 mm
Nominal height	1.017 mm
Width actual	1.095 mm
Depth actual	695 mm

Project _____

Order _____

Quantity _____

Date _____

Height	1.017 mm
Weight	15 kg
Payload	120 kg
Main material	Stainless steel

INTERIOR PROPERTIES

Board construction	With sound insulation board Welded shelf
Number of shelves	1
Execution of board rim	Folding Profile edge

MOBILITY

Castor equipment

castor_type	quantity
Swivel castor with lock	2
Swivel castor	2
Castor attachment	Bolt-on panel
Castor bearing type	Plain bearing
Castor housing material	Plastic
Wheel ø	125 mm
Type of tyre tread	Rubber – Standard
Design of the locks	Total lock
Impact protection construction	Deflector rollers
Push handle construction	Push bar
