

Platform trolley 540×540 mm

Product code	Type
0112662	PW 5,4x5,4

FUNCTIONAL DESCRIPTION

Platform trolley with smooth 21.5 × 21.5" (545 × 545 mm) shelf.

- High-quality stainless steel construction ensures robust durability and hygienic surfaces for low-germ environments
- Smooth platform with inward folded and rebated edges allows quick and residue-free cleaning, saving time and costs
- Ergonomically angled push bar welded to the platform provides excellent manoeuvrability and ease of handling
- Four swivel casters with two total locks enable smooth movement and secure positioning during use
- Polymer corner bumpers protect both the trolley and surrounding walls from damage, enhancing operational safety

EQUIPMENT FEATURES

Hygienic stainless steel surfaces

Hygienic stainless steel surfaces ensure a low-germ environment. The smooth, non-porous structure can be cleaned quickly and without leaving any residue. This saves you time, reduces cleaning costs and meets strict hygiene standards – ideal for commercial kitchens and medical areas. Robust, durable and reliable in daily use.

Sound-insulated platform

The smooth, sound-insulated platform minimises noise when placing and transporting goods. Hygienically bevelled and easy to clean the platform meets the highest hygiene requirements in commercial kitchens and hospitals.

Corner bumpers

The corner bumpers protect the body at the exposed points of the equipment from damage caused by bumping or impact. The plastic construction on the chassis provides solid protection for the trolley.

Disk bumpers

The elastic plastic rollers on all four corners of the appliance provide reliable protection against damage during transportation. Thanks to their simple design, they can be replaced quickly and without tools, which reduces maintenance costs and increases operational readiness.

High Manoeuvrability: 4 swivel castors, 2 with total locks

Four smooth-running swivel castors, two with total locks, enable precise manoeuvring in tight spaces and secure locking during operation. This equipment ensures optimal mobility while maintaining high directional stability and security.

Ergonomic handle

Ergonomic handle for a more upright posture and increased legroom while pushing.

GENERAL TECHNICAL DATA

Width rated	540 mm
Depth rated	540 mm
Nominal height	1.024 mm
Width actual	606 mm
Depth actual	708 mm
Height	1.024 mm
Weight	14 kg
Payload	120 kg
Main material	Stainless steel

INTERIOR PROPERTIES

Board construction	With sound insulation board
Number of shelves	1
Execution of board rim	Folding

MOBILITY

Castor equipment

castor_type	quantity
Swivel castor with lock	2
Swivel castor	2
Castor attachment	Screw-on plate and round pin
Castor bearing type	Plain bearing
Castor housing material	Plastic
Wheel ø	125 mm
Type of tyre tread	Rubber – Standard

Platform trolley 540×540 mm

Design of the locks	Total lock
Impact protection construction	Corner bumpers
Push handle construction	Push bar
