### FUNCTIONAL DESCRIPTION

The mobile packing table enables the efficient organisation and sorting of work materials through flexible hanging options. Additionally, the mobile packing table supports easy transport and adaptation to various work environments due to its mobility.

### EQUIPMENT FEATURES

**Hygienic stainless steel surfaces**  
Hygienic stainless steel surfaces ensure a low-germ environment. The smooth, non-porous structure can be cleaned quickly and without leaving any residue. This saves you time, reduces cleaning costs and meets strict hygiene standards – ideal for commercial kitchens and medical areas. Robust, durable and reliable in daily use.

**Solid base plate**  
The solid base plate with folded edges on all sides ensures maximum stability and load-bearing capacity.

**High Manoeuvrability: 4 swivel castors, 2 with total locks**  
Four smooth-running swivel castors, two with total locks, enable precise manoeuvring in tight spaces and secure locking during operation. This equipment ensures optimal mobility while maintaining high directional stability and security.

**Reinforced worktop**  
The reinforced worktop is torsion-resistant and offers increased load-bearing capacity. It creates a stable, safe working base for precise work and supports controlled work processes – even for demanding applications in commercial kitchens and medicine.

### GENERAL TECHNICAL DATA

|                      |                 |
|----------------------|-----------------|
| <b>Width rated</b>   | 1.447 mm        |
| <b>Width actual</b>  | 1.447 mm        |
| <b>Depth actual</b>  | 750 mm          |
| <b>Height</b>        | 900 mm          |
| <b>Weight</b>        | 32 kg           |
| <b>Payload</b>       | 150 kg          |
| <b>Main material</b> | Stainless steel |
