FUNCTIONAL DESCRIPTION

The hanging rail for attaching to wall hook rails, hook trolleys, or packing tables serves for the hygienic storage and organisation of sterile goods in foil packaging with a hanging loop.

- Electropolished stainless steel surfaces ensure maximum hygiene through a smooth, bacteria-repellent finish that is easy to clean and disinfect
- Tool-free attachment and removal enable quick, flexible handling and simplify cleaning processes
- Compatibility with Hupfer hook rails, trolleys, and packing tables allows seamless integration and adaptable logistics solutions
- Robust, self-supporting wire design provides durable and stable storage for sterile supplies
- Eight welded hooks offer clear, organised storage that optimises space and workflow efficiency

EQUIPMENT FEATURES

Accessories for the hook system

The accessories are compatible with Hupfer wall hook rails, hook trolleys and packing tables with hook rails. This allows the hook system to be flexibly extended and optimally adapted to individual work processes.

Tool-free attachment and removal

Accessories for hook trolleys, wall hook rails and packing tables with hook rails can be attached and removed without tools. This saves time, simplifies cleaning and enables fast, flexible conversion during operation.

Electropolished stainless steel

Electropolished stainless steel surfaces meet the highest hygiene requirements thanks to their extremely smooth, non-porous structure. The electrochemical treatment eliminates micro-unevenness and creates a bacteria-repellent surface that is particularly easy to clean and disinfect.

GENERAL TECHNICAL DATA

Width rated	555 mm
Depth rated	182 mm
Nominal height	82 mm
Width actual	555 mm
Depth actual	182 mm
Height	82 mm
Weight	1 kg
Main material	Electropolished stainless steel

HOOK PROPERTIES

Number of hooks	8
