

Container transport cart for 6 STU

Product code	Type
7504641	CTW/VV 6StE 965/754/1445

FUNCTIONAL DESCRIPTION

Transport trolley for transport and storage of sterile supplies in containers or baskets.

- Fully welded stainless steel construction ensures durability and meets highest hygiene standards
- Double-wing doors with 270° opening and 2-point locking provide secure, easy access and reliable sealing
- Height-adjustable L-shaped shelves allow flexible storage for various container sizes
- Four vertical push bars enable ergonomic manoeuvring even with doors open
- All-round bumper strip protects trolley from impacts, enhancing safety and equipment longevity

EQUIPMENT FEATURES

All-round bumper strip at the bottom
The robust all-round bumper strip reliably protects against damage from collisions with trolleys or walls, ensuring your equipment stays intact and your workday safer.

Closed design with hinged doors
The closed design includes an all-round closed construction with hinged doors for easy handling. The design ensures safe storage and protects the inside of the transport trolley from external influences. The smooth surface is free of openings or crevices and facilitates cleaning. The robust stainless steel construction ensures both durability and high standards of hygiene.

Fully welded stainless steel body
The sturdy, self-supporting and hygienic fully welded stainless steel body has no undercuts, thus providing the ideal conditions for maximum hygiene and ease of cleaning. Thanks to their design, trolleys with a fully welded body are suitable for use in washing systems.

True-tracking mobility: 2 swivel castors, 2 fixed castors
2 swivel castors, 2 fixed castors: The trolley stays on track, even under heavy loads. Precise manoeuvring, fewer corrections, greater operational safety.

Doors with 2-point locking
The doors feature a 2-point locking system for maximum security and sealing. The ergonomic closure can be quickly opened with one hand and automatically engages when closing. Ideal for professional use in commercial kitchens and medical facilities.

Stainless steel paper clip
The robust stainless steel paper clip enables hygienic and secure attachment of trolley information. The corrosion-resistant material ensures a long service life even with intensive use.

Date _____

Transport latch incl. sealing
The innovative locking system reliably protects the contents from unauthorised access and prevents accidental opening while driving. Thanks to the additional seal, it is possible to tell at any time whether the trolley has been opened without authorisation – a decisive advantage for sensitive areas.

Push bars
Push bars are round tubes attached vertically to the corners of a transport trolley's body. Two-handed gripping at any handle height enables ergonomic, easy manoeuvring of the transport trolley.

Height-adjustable shelves
The tool-free height adjustment allows the shelves to be quickly and easily adapted to different requirements. Ideal for goods of varying heights in commercial kitchens and medical facilities.

Welded interior
The welded interior provides seamless and gap-free surfaces for maximum hygiene. The smooth construction enables effortless cleaning and meets the highest hygiene requirements in commercial kitchens and medical facilities.

GENERAL TECHNICAL DATA

Nominal format	StE baskets 600 × 300 mm
Quantity nominal format	6
Width actual	965 mm
Depth actual	754 mm
Height	1.445 mm
Weight	103 kg
Payload	150 kg
Main material	Stainless steel

Container transport cart for 6 STU

INSERT PROPERTIES

Insertions construction	L-rails
-------------------------	---------

HOUSING PROPERTIES

Cart construction	Fully welded
Cart housing construction	Single-walled
Cover construction	Welded roof with cross-hatch embossing
Number of doors	2
Door construction	Hinged doors
Door lock (closed)	2-point locking Transport latch with sealing tab
Door lock (open)	Extension piece
Max. Door opening angle	270 °
Door seal construction	Lip seal on door
With sealing flap	Yes

INTERIOR PROPERTIES

Cart interior construction	Seamlessly welded
Interior/compartment material	Stainless steel

MOBILITY

Set of castors	2 fixed castors 2 swivel castors with brakes
Castor attachment	Bolt-on panel
Chassis suitability	Off-premises transport
Castor bearing material	Stainless steel
Castor bearing type	Ball bearing
Castor housing material	Stainless steel
Wheel ø	160 mm
Type of tyre tread	Rubber – Standard
Wheels with thread guard	Yes
Antistatic wheels	No
Suitable for transport cart washing devices	Suitable for washing machines
Towing device	Not available
HGV transport securing device	No
Impact protection construction	Bumper strip around the bottom
Push handle construction	Push handles
