

Container transport cart for 9 STU

Product code

7504642

Type

CTW/VV 9StE 1249/754/1440

FUNCTIONAL DESCRIPTION

Transport trolley for transport and storage of sterile supplies in containers or baskets.

- Fully-welded stainless steel structure ensures durability and suitability for washing devices
- Double-walled double-wing doors with 270° opening angle and automatic closing mechanism enable easy one-hand operation
- Integrated 2-point locking system provides secure storage of sterile supplies
- Height-adjustable removable L-shaped shelf rails accommodate various container sizes for versatile organisation
- Continuous vertical push bars and robust bumper strip allow safe manoeuvring and protection during transport

EQUIPMENT FEATURES

All-round bumper strip at the bottom

The robust all-round bumper strip reliably protects against damage from collisions with trolleys or walls, ensuring your equipment stays intact and your workday safer.

Closed design with hinged doors

The closed design includes an all-round closed construction with hinged doors for easy handling. The design ensures safe storage and protects the inside of the transport trolley from external influences. The smooth surface is free of openings or crevices and facilitates cleaning. The robust stainless steel construction ensures both durability and high standards of hygiene.

True-tracking mobility: 2 swivel castors, 2 fixed castors

2 swivel castors, 2 fixed castors: The trolley stays on track, even under heavy loads. Precise manoeuvring, fewer corrections, greater operational safety.

Doors with 2-point locking

The doors feature a 2-point locking system for maximum security and sealing. The ergonomic closure can be quickly opened with one hand and automatically engages when closing. Ideal for professional use in commercial kitchens and medical facilities.

Stainless steel paper clip

The robust stainless steel paper clip enables hygienic and secure attachment of trolley information. The corrosion-resistant material ensures a long service life even with intensive use.

Transport latch incl. sealing

The innovative locking system reliably protects the contents from unauthorised access and prevents accidental opening while driving. Thanks to the additional seal, it is possible to tell at any time whether the trolley has been opened without authorisation – a decisive advantage for sensitive areas.

Clear status display

The status display in red and green allows employees to quickly identify the status of the transported goods.

Push bars

Push bars are round tubes attached vertically to the corners of a transport trolley's body. Two-handed gripping at any handle height enables ergonomic, easy manoeuvring of the transport trolley.

Height-adjustable shelves

The tool-free height adjustment allows the shelves to be quickly and easily adapted to different requirements. Ideal for goods of varying heights in commercial kitchens and medical facilities.

Welded interior

The welded interior provides seamless and gap-free surfaces for maximum hygiene. The smooth construction enables effortless cleaning and meets the highest hygiene requirements in commercial kitchens and medical facilities.

GENERAL TECHNICAL DATA

Nominal format	StE baskets 600 × 300 mm
Quantity nominal format	9
Width actual	1.249 mm
Depth actual	754 mm
Height	1.440 mm
Weight	132 kg
Payload	150 kg
Main material	Stainless steel

INSERT PROPERTIES

Insertions construction	L-rails
--------------------------------	---------

Container transport cart for 9 STU

HOUSING PROPERTIES

Cart construction	Fully welded
Door construction	Hinged doors
Max. Door opening angle	270 °

MOBILITY

Castor equipment

castor_type	quantity
Swivel castor with lock	2
Fixed castor	2
Set of castors	2 fixed castors 2 swivel castors with brakes
Castor attachment	Bolt-on panel
Castor bearing material	Stainless steel
Castor bearing type	Ball bearing
Castor housing material	Stainless steel
Wheel ø	160 mm
Type of tyre tread	Rubber – Standard
Wheels with thread guard	Yes
Design of the locks	Total lock
Suitable for transport cart washing devices	Suitable for washing machines
Impact protection construction	Bumper strip around the bottom
Push handle construction	Push handles
