

Basket dispenser for 2 stacks of StU baskets

Product code	Type
7504872	OKO 61-61 StE

FUNCTIONAL DESCRIPTION

Open basket dispenser with height-adjustable platform for storing two stacks of sterile supplies baskets.

- Hygienic stainless steel surfaces ensure a low-germ environment and fast, residue-free cleaning
- Manually adjustable tension spring system maintains a constant dispensing height for ergonomic and efficient workflows
- Solid base plate with folded edges provides maximum stability and load-bearing capacity
- Integrated polymer push handles and corner bumpers protect equipment and enable safe handling in busy settings
- Four smooth swivel castors, two with total locks, offer high manoeuvrability and secure positioning

EQUIPMENT FEATURES

Hygienic stainless steel surfaces
Hygienic stainless steel surfaces ensure a low-germ environment. The smooth, non-porous structure can be cleaned quickly and without leaving any residue. This saves you time, reduces cleaning costs and meets strict hygiene standards – ideal for commercial kitchens and medical areas. Robust, durable and reliable in daily use.

Corner bumpers
The corner bumpers protect the body at the exposed points of the equipment from damage caused by bumping or impact. The plastic construction on the chassis provides solid protection for the trolley.

Solid base plate
The solid base plate with folded edges on all sides ensures maximum stability and load-bearing capacity.

High Manoeuvrability: 4 swivel castors, 2 with total locks
Four smooth-running swivel castors, two with total locks, enable precise manoeuvring in tight spaces and secure locking during operation. This equipment ensures optimal mobility while maintaining high directional stability and security.

Constant pick-up height
The constant pick-up height enables ergonomic working and reduces physical strain. The consistent height accelerates workflows and increases work efficiency. Precise stacking and safe access are guaranteed at all times.

Manually adjustable tension spring system
Ensures a constant dispensing height of loads – for ergonomic working, faster processes and consistent presentation in kitchens and clinics.

Integrated push handles
The sturdy polymer upper bumpers provide reliable protection against damage and also act as ergonomic push handles. This well thought-out design enables safe handling in hectic everyday working life.
