

Case cart for sterile supplies 785×751×1471 mm

Product code

7505992

Type

STW/M US-1T 785/751/1471

FUNCTIONAL DESCRIPTION

Case carts for the transport, storage and provision of sterile supplies in containers or baskets

- Hygienic stainless steel surfaces ensure a low-germ environment and quick, residue-free cleaning for strict hygiene compliance
- Self-locking door with transport latch and sealing provides secure closure and prevents unauthorised access during transport
- 270° hinged door with stop strip enables easy loading and unloading without additional hand or foot controls
- Tool-free removable solid shelves offer flexible storage adaptation and facilitate thorough cleaning
- True-tracking mobility with two swivel castors and two fixed castors ensures precise manoeuvring and operational safety

EQUIPMENT FEATURES

Hygienic stainless steel surfaces

Hygienic stainless steel surfaces ensure a low-germ environment. The smooth, non-porous structure can be cleaned quickly and without leaving any residue. This saves you time, reduces cleaning costs and meets strict hygiene standards – ideal for commercial kitchens and medical areas. Robust, durable and reliable in daily use.

All-round bumper strip at the bottom

The robust all-round bumper strip reliably protects against damage from collisions with trolleys or walls, ensuring your equipment stays intact and your workday safer.

True-tracking mobility: 2 swivel castors, 2 fixed castors

2 swivel castors, 2 fixed castors: The trolley stays on track, even under heavy loads. Precise manoeuvring, fewer corrections, greater operational safety.

Stainless steel paper clip

The robust stainless steel paper clip enables hygienic and secure attachment of trolley information. The corrosion-resistant material ensures a long service life even with intensive use.

Transport latch incl. sealing

The innovative locking system reliably protects the contents from unauthorised access and prevents accidental opening while driving. Thanks to the additional seal, it is possible to tell at any time whether the trolley has been opened without authorisation – a decisive advantage for sensitive areas.

Clear status display

The status display in red and green allows employees to quickly identify the status of the transported goods.

Push bars

Push bars are round tubes attached vertically to the corners of a transport trolley's body. Two-handed gripping at any handle height enables ergonomic, easy manoeuvring of the transport trolley.

Solid shelf

The solid shelf offers an optimal support surface for safe storage. The closed surface ensures easy and hygienic cleaning – ideal for professional kitchens and medical areas.

Tool-free shelf exchange

The shelves can be removed and exchanged without tools. This enables flexible adaptation to different storage requirements and significantly facilitates cleaning.

GENERAL TECHNICAL DATA

Width actual	785 mm
Depth actual	751 mm
Height	1.471 mm
Weight	96 kg
Payload	45 kg
Main material	Stainless steel

HOUSING PROPERTIES

Cart construction	Modular construction
Cover construction	Roof
Number of doors	1
Door construction	Hinged doors
Door lock (closed)	Transport latch with sealing tab
Door lock (open)	Extension piece
Max. Door opening angle	270 °
Door seal construction	Lip seal on door
With sealing flap	Yes

Case cart for sterile supplies 785×751×1471 mm

INTERIOR PROPERTIES

Cart interior construction	Modular construction
Board construction	Insertable shelf Closed shelf
Number of shelves	2

MOBILITY

Push handle construction	Push handles
Impact protection construction	Bumper strip around the bottom
Set of castors	2 fixed castors 2 swivel castors with brakes
Castor attachment	Bolt-on panel
Castor bearing type	Ball bearing
Castor housing material	Stainless steel
Wheel ø	160 mm
Type of tyre tread	Rubber – Standard
