

Hook trolley 40 pairs of surgical clogs

Product code

7506174

Type

HAW 605/675/1620 2/8HP 8Ko

FUNCTIONAL DESCRIPTION

The Hook trolley 40 pairs of surgical clogs by Hupfer serves the transport and provision of surgical clogs.

- Hygienic stainless steel surfaces ensure easy cleaning and maintain sterile conditions
- Hook rails on both sides provide efficient storage and organisation of surgical clogs
- Hooks for sterile goods baskets enable secure and practical transport of medical items
- High manoeuvrability with swivel castors and total locks allows smooth movement and stable positioning
- Dedicated basket for surgical shoes offers convenient and accessible storage

EQUIPMENT FEATURES

Hygienic stainless steel surfaces

Hygienic stainless steel surfaces ensure a low-germ environment. The smooth, non-porous structure can be cleaned quickly and without leaving any residue. This saves you time, reduces cleaning costs and meets strict hygiene standards – ideal for commercial kitchens and medical areas. Robust, durable and reliable in daily use.

Basket for surgical shoes

The robust stainless steel wire basket provides secure storage for surgical shoes and enables cleaning, drying, storage and dispensing with a single basket. This all-in-one solution optimizes workflows in the operating theatre and ensures the highest hygiene standards.

Hooks for sterile goods baskets

The integrated hook system enables the flexible attachment of mesh baskets, sterile supply containers and sterile supply baskets. Maximum flexibility for optimum use of space in sterile processing.

High Manoeuvrability: 4 swivel castors, 2 with total locks

Four smooth-running swivel castors, two with total locks, enable precise manoeuvring in tight spaces and secure locking during operation. This equipment ensures optimal mobility while maintaining high directional stability and security.

Hook rails on both sides

Maximum efficiency in everyday clinical practice thanks to loading on both sides. The hook rails on both sides of the trolley allow optimum use of space for medical products and instruments. More capacity with the same space requirement for maximum efficiency.

GENERAL TECHNICAL DATA

Rated capacity

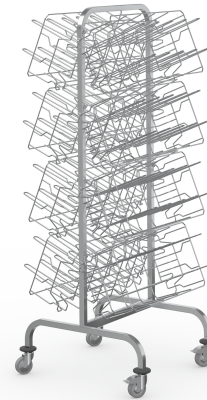

Position	Rated capacity	Quantity
Total	Pairs of operating theatre shoes	40

Project _____

Order _____

Quantity _____

Date _____

Width actual	605 mm
Depth actual	675 mm
Height	1.620 mm
Weight	28 kg
Payload	300 kg
Main material	Stainless steel

HOOK PROPERTIES

Number of hooks	16
Number of hook pairs	8
Load capacity per hook	30 kg
Hook pitch	320 mm

MOBILITY

Set of castors	2 swivel castors with brakes 2 swivel castors
Castor attachment	Back hole
Castor bearing material	Galvanised steel
Castor bearing type	Ball bearing
Castor housing material	Steel (galvanised)
Wheel ø	75 mm
Type of tyre tread	Rubber – Standard
Wheels with thread guard	Yes
Antistatic wheels	Yes
Impact protection construction	Deflector rollers
