

Hook trolley set for urology

Product code	Type
7506474	HAW 650/1005/1657 Uro

FUNCTIONAL DESCRIPTION

The Hook trolley set for urology by Hupfer serves the provision of accessories and the transport of sterile goods.

- Hygienic stainless steel surfaces ensure easy cleaning and maintain optimum hygiene in medical environments
- Hook rails on both sides provide versatile and accessible storage for sterile goods baskets and accessories
- Welded shelf bolts and robust frame offer durable support and secure attachment of medical supplies
- Four swivel castors, including two with locks, guarantee smooth manoeuvrability and safe immobilisation
- Antistatic tyres protect sensitive equipment by preventing electrostatic charging during transport

EQUIPMENT FEATURES

Hygienic stainless steel surfaces
Hygienic stainless steel surfaces ensure a low-germ environment. The smooth, non-porous structure can be cleaned quickly and without leaving any residue. This saves you time, reduces cleaning costs and meets strict hygiene standards – ideal for commercial kitchens and medical areas. Robust, durable and reliable in daily use.

Case-specific equipment
The trolley is equipped with specially selected baskets and accessories that are perfectly tailored to the requirements of the respective department based on years of experience. This well thought-out configuration optimizes workflows and increases efficiency in everyday clinical practice.

Hooks for sterile goods baskets
The integrated hook system enables the flexible attachment of mesh baskets, sterile supply containers and sterile supply baskets. Maximum flexibility for optimum use of space in sterile processing.

High Manoeuvrability: 4 swivel castors, 2 with total locks
Four smooth-running swivel castors, two with total locks, enable precise manoeuvring in tight spaces and secure locking during operation. This equipment ensures optimal mobility while maintaining high directional stability and security.

Hook rails on both sides
Maximum efficiency in everyday clinical practice thanks to loading on both sides. The hook rails on both sides of the trolley allow optimum use of space for medical products and instruments. More capacity with the same space requirement for maximum efficiency.

Welded shelf bolts
Welded shelf support bolts are compatible with shelf supports, L-profile rails, U-profile rails and slide-in frames. The flexible system allows tool-free height adjustment or replacement of the support.

GENERAL TECHNICAL DATA

Width actual	650 mm
Depth actual	1.005 mm
Height	1.657 mm
Weight	47 kg
Payload	300 kg
Main material	Stainless steel

HOOK PROPERTIES

Number of hooks	30
Number of hook pairs	15
Load capacity per hook	30 kg
Hook pitch	333 mm

MOBILITY

Set of castors	2 swivel castors with brakes 2 swivel castors
Castor attachment	Round pin
Castor bearing type	Ball bearing
Castor housing material	Plastic
Wheel ø	100 mm
Type of tyre tread	Rubber – Standard
Wheels with thread guard	Yes
Antistatic wheels	No
Impact protection construction	Deflector rollers
