FUNCTIONAL DESCRIPTION

Soap and disinfectant dispenser 1,000 ml, made from high-quality stainless steel in a hygienic design for wall mounting.

- Mat polished stainless steel housing ensures robust durability and hygienic design
- Optical fill level control allows easy monitoring of soap or disinfectant levels
- Plastic refillable bottle supports flexible use with various liquid soaps and disinfectants
- Bracket-shaped dosing handle enables hygienic elbow operation without hand contact
- Wall mounting design saves space and facilitates convenient placement in commercial environments

EQUIPMENT FEATURES

Hygienic stainless steel surfaces
Hygienic stainless steel surfaces ensure a low-germ environment. The smooth, non-porous structure can be cleaned quickly and without leaving any residue. This saves you time, reduces cleaning costs and meets strict hygiene standards – ideal for commercial kitchens and medical areas. Robust, durable and reliable in daily use.

For interchangeable containers 1 litre
The dispenser is designed for standard interchangeable containers with a capacity of 1 litre. Standard containers can be replaced quickly and easily – for smooth operation in commercial kitchens and medical facilities.

Wall mounting incl. mounting material
The product is supplied complete with screws and plugs for wall mounting on site. This eliminates the need for time-consuming material procurement – installation can be carried out immediately and without additional effort.

Elbow operation for hygienic use
The wire-shaped control element allows easy elbow operation – without any hand contact. The minimal contact surface simplifies cleaning and ensures maximum hygiene.

GENERAL TECHNICAL DATA

Width actual	93 mm
Depth actual	195 mm
Height	305 mm
Weight	1 kg
Main material	Stainless steel
